## WEDDING PHOTOGRAPHY

## How it Works

My job is to record the fun and all the little details of your special day that you may miss in the excitement. It is also important that your pictures show your love for each other and your relationship with your guests.

I work in a relaxed unobtrusive way so that even the seriously self-conscious will be comfortable.

I will meet with you, it is important that we feel comfortable with each other, and confirm the venue and dates.

*A 10% deposit secures your date at this meeting.*

I will supply you with a "tick box" list of suggested pictures for you to make some decisions about the shots you would like. It is helpful if you supply me with the names of significant members of the bridal party.

And we will arrange for the optional portrait session if you decide that you would like that. This is a great opportunity to get to know each other before the day and it is included in the price.

*At this meeting I ask that you pay me 50% of the fee (less deposit).*

About two weeks after your wedding I will give you the preview album, which is yours to keep, and a suggested layout of an album telling the story of your day in case you decide to buy one.

*This is when I will need your final payment.*

## Flexible Pricing

**To help you budget for your day I charge a flat fee of £650 for my time.**

For this I will meet you a few weeks before for a portrait session when we will get to know each other a little better. It helps you feel comfortable on the day. You can choose one of the pictures which I will mount for your wedding guests to sign on the day of the wedding.

On the day I will visit the bride at home getting ready then I go and meet the groom and best man at the wedding venue and then take photos of the bride arriving, throughout the ceremony, where permissible, and the signing of the register. All the groups after the ceremony and some romantic pictures of the bride and groom on their own, and leaving in the car for the reception, where I will photograph the cutting of the cake if it is "staged" prior to the reception.

I will supply 6x4 proofs of all the pictures in an album for you to keep, and put your pictures online for friends and family to order direct from me.

You can then choose to have prints, a storybook, or an album along with a CD as and when you like.

There is a large range of albums from which to choose ranging in price from £400.

If you would like a CD instead of an album this is charged at £15 per image.

If you would like me to stay for the speeches and first dance the fee will be a little more. If you would like two photographers there is an additional fee. For weddings further than 50 miles away I charge mileage at 40p per mile over 50miles.
